SPEEDY SKIPS

Spotlight

Local Family Business Continues to Give Back to the Community

Allstone Speedy Skips has a long history of donations and support for worthy causes as a business for positive community impact.

A Few Words From Rowan, Our New Managing Director

Hello everyone, I'm Rowan Elliott, the new Managing Director at Allstone, and I'm delighted to introduce this latest edition of Spotlight.

Having spent over 30 years in the Mineral Processing and Recycling industry and 13 years living in Gloucester, I'm both proud and excited to lead the Allstone Company.

Take a moment to read through the many community-focused initiatives we've been a part of, and the several developments we've implemented to make this space greener and cleaner.

It doesn't end there, however. I'd like us to do more and that is where you come in...

As you may know, Allstone operates a Community Liaison Group, which allows us to have an active part in the community, on the ground, to ensure the community has a voice.

We are looking for 2 residents to step forward and join this group and be another important voice. If you're interested in playing an active role in our community story, please send your contact details to marika@allstone.co.uk and we'll send you further information on both the role, and how you can play a positive part in our journey.

In the meantime, please enjoy reading Spotlight and I hope to see you soon.

New Dust Mitigation Measures

For Allstone, improvements on processes and equipment is always one of our top priorities, and we're always seeking out ways to develop and refine our operation, including the reduction of any environmental impact.

As such, it's our pleasure to announce that we've introduced several new industrial long reach sprinklers that will serve to dampen main traffic routes while mitigating any dust blowing up during the dry summer months.

Furthermore, to continue the trend of improvements, we have fabricated a dedicated water bowser to add additional water coverage to the yard during very dry periods. It is aimed that, overall, the community will be supported both logistically and environmentally from these implementations.

"Supporting a Circular Economy"

BREAKING MYTHS AND MISINFORMATION

100% RECYCLED SOURCED FROM SUSTAINABLE FORESTS

Litter Picking Campaigns at the Gloucester Depot

Allstone Speedy Skips holds the Gloucestershire community close to our hearts, which is why we're committed to keeping the community clean and green and running campaigns to not only give back to the community, but give everyone a chance to take care of the community themselves.

We run campaigns in and around the Gloucester depot and all the litter collected during these drives is taken back to our operation for recycling, which has greatly reduced the amount of waste sent to landfill and the negative impact litter has on the community, both socially and environmentally.

It's a great way to make a difference to your community, so if you want to get involved, keep an eye out for our next litter picking campaign. Everyone is welcome!

Allstone's Continuing Commitment to Recycling

Our new, state-of-the-art wash plant is now fully operational and producing quality, sustainable aggregates for Gloucestershire and beyond. As an environmentally conscious family business, Allstone are investing for the future to help divert waste to landfill, provide a valuable service to the local community and support a Circular Economy.

Second Weighbridge Investment

Day-to-day operations improvements have further included the addition of two new weighbridges, ensuring we can accommodate customers in a more efficient and safe manner. Likewise, we have split the yard space to open dedicated routes for skip trucks and tippers.

Traffic now flows more freely, as this reorganisation and investment allows us to now coordinate vehicle movements in a more structured fashion and prevent any build up of vehicles on the main access road.

Supporting Our Local Community

Charities and our neighbouring communities are at the heart of Allstone Speedy Skips. Over the last few years, we are pleased and proud to have fundraised for a large number of initiatives.

There are just a few of the outreach initiatives we want to highlight this quarter:

Balfour Beatty

As part of the Springbank Community Group rubbish clearance at Ron Smith pavilion, Cheltenham, Allstone Speedy Skips happily donated the use of several skips.

Montel Civils

Activities and wellness spaces are essential for communities. We're happy to report we've donated material to Montel Civils for a new community garden in Gloucester!

AMPM

Ensuring accessibility within the community is highly important for the well-being of all people, which is why we've donated material to AMPM Ltd so they can complete wheelchair improvements at St Roses School, Stroud.

“We recycle up to 98% of all waste”
